Equal Opportunities policy

Equal opportunities are involved in staff recruitment, all posts are advertised and all applicants dealt with fairly.

The Nursery is committed to ensuring equality of opportunity for all that learn and work here, we strive positively to remove conditions and attitudes which place people at a disadvantage. It is crucial that all children are able to play with activities without discrimination; we strive to promote non stereotypical conditions, values and environments.

The Nursery recognises and respects racial, religious cultural and linguistic values these are introduced to the children throughout the nursery. We do this through baking, art and craft work, introducing different foods on our menus. Celebrations of festivals including home and the wider-world, jigsaws, books, posters and pictures and dressing up.

Special dietary needs will be met, this will be discussed prior to admission.
